Team:

Please see attached memo our office received re: security lighting at bus stops. In short, Bureau of Street Lighting is putting together its next round of security lighting at bus stops and they are soliciting our input on locations.

Since Metro, BBB and Culver City serve much of the 11th district, I have solicited their help to see if they've received any feedback from the public or their bus operators on problematic locations. If you have received input from members of the public and/or have identified locations that you believe would benefit from security lighting, please send them to me in priority order.

Note, that this is not a guarantee of funding but we're guaranteed to receive nothing if we don't submit locations.

Regards,

Paul Backstrom
